Amendments to the Specification

Please replace the paragraph beginning on page 19, line 2 with the following:

-- A method for correcting for exposure in a digital image <u>is</u> <u>disclosed. The digital image</u> ~~which~~ was captured by an image capture device and ~~which~~ is to be printed on a printer which forms monochrome or color images, on a medium<u>. The method provides</u>~~, including providing~~ a plurality of exposure and tone scale correcting transforms<u>.</u> ~~, each~~ <u>Each</u> such transform ~~being~~ <u>is</u> unique to an exposure condition and which corrects exposure and tone scale for a digital image captured by the capture device<u>. The</u> ~~for such unique exposure conditions and to be printed by the printer, applying the~~ plurality of transforms <u>are applied</u> to the digital image and ~~printing~~ a plurality of images <u>are printed.</u> ~~corresponding to the digital image on which the transforms~~ <u>The user then determines</u> ~~were applied, and determining~~ the most satisfying printed image ~~to the user~~ which corresponds a particular transform to be used to make visual images from the digital image. --
